¹ For total crime and domestic burglary the percentage reductions refer to the change over time between July 2011 to June 2012 and July 2012 to June 2013, and the change over time between July 2012 to June 2013 and July 2013 to June 2014

² The trend over time refers to the 12 months to June 2014 versus the 12 months to June 2013. This means that for total crime and domestic burglary, although the percentage reductions over time have reduced, the trend is still showing as an improvement as there has been a reduction compared to the previous year
